Buenos Aires, February 8, 2023

Dear comrades:

The Argentine Workers' Central Union (CTA-T) sends our solidarity with the Turkish and Syrian countries hit by a devastating earthquake that caused the death of hundreds of people and many more injured on Monday, February 6.

We offer our sincerest condolences to those families who have lost loved ones after the disaster, and we wish for a swift recovery of those who suffered any injury.

We understand that the difficulties already faced by workers in both countries, from armed conflict to the economic crisis, are now compounded by the challenges of reconstruction. The CTA-T reiterates its solidarity and hopes to contribute in the recovering to the best of its ability.

Likewise, the Central Union and its affiliates are at the disposal of our trade unionist comrades for any assistance they may require.

In solidarity,

Argentine Workers' Central Union (CTA-T)

Hugo Yasky
Secretario General
